Biography

David was a high school and collegiate track and field athlete. During his high school career he competed in many local 5k road races and was a state qualifier in the 800 meters. He continued his running career at Duquesne University where he competed in track and field for four years and Cross Country for three. Following his graduation from his bachelors he continued to run during graduate school and would make the trip up from Pittsburgh to contribute to the local races he had come accustomed to. He loved to run and would do the best he could to fit running into his busy life. He was a member of the Elk County Striders. Before his passing away he had earned his bachelors in Athletic Training from Duquesne University in 2002, his masters in Exercise Physiology from the University of Pittsburgh and was pursuing his PhD from the University of Pittsburgh in Exercise Physiology. David was a BLS instructor for Healthcare providers. He had worked with many organizations in and around Pittsburgh including UPMC Presby-Shadyside, Strength Fitness & Speed, and his favorite place Locke's Fitness Studio. He had also completed Strength and Conditioning internship with the Pittsburgh Pirates. David strove to improve the health and wellbeing of others. We hope to carry on his work by encouraging individuals of all ages to become active in fitness, improve their overall wellness, and to have fun along the way.
